and Task Order No. 1 thereunder

25X1A

Reference: Memo from Assistant Executive Officer, DDP

1. Referenced Memo from Requisitioning Component advises that the Security classification of Association ~~SECRET~~, on the R&D program under Task Order No. 2 to Contract No. [REDACTED], no longer applies and sets forth the reasons therefor. The Memo further requests that a new Unclassified Base Contract and Task Order No. 1 thereunder be written with [REDACTED] covering the remaining unclassified portion of the program and that these new documents incorporate the Security Manual "Industrial Security Standards for Safeguarding Classified Material". This Manual sets forth certain requirements which the Contractor is to follow when he receives classified material under an Unclassified Task.

4. Prior to receipt of referenced Memo, a meeting was held with [REDACTED], then Deputy Comptroller and [REDACTED] C/EAS for the purposes of clarifying any funding problem. Representatives of Procurement Division, ICAB, Budget Office, and Mr. Dick Chapelle of GAO attended the meeting. It was determined at this time that due to continuation of the program without interruption, the remaining existing monies, from Fiscal Years 1957 and 1958 appropriations, obligated for the program, will be utilized under the new Contract and it is not necessary to transfer the applicable unvouchered funds to vouchered funds. Mr. Chapelle did stipulate that the terms and provisions of the new Contract and Task Order be identical, except for security requirements, with those set forth under Task Order No. 2, Contract No. [REDACTED] and the new documents have been drafted accordingly.
